

Premium Scrolling Banner Stand - 33"x78"

33"

1" for Bleed

Visible Area

33"W x 78"H

Note to Designers:

- All graphic files must be built at **150 dpi** at the overall graphic layout size.
- All graphic file must be created using **CMYK** mode to ensure the best color matching. If you would like a specific color matched, you **MUST** provide a **PMS** color or we cannot guarantee color matching.
- It is best to **flatten** all images and outline all text to ensure that nothing will drop out or change during file transfer.
- Be aware of Safe **Viewable Zone** and **Guides** that may cut your important elements off. Using guidelines will keep margins on your radar and prevent mistakes.
- The "**Bleed Zone**" are hidden inside the hardware. However, it is **STRONGLY** recommended that you **extend** your background graphics to the edges of artboard to ensure proper bleed with no visible unprinted areas.

File Format
PDF and TIF

Below this part will not be visible, it will go inside the mechanism
